

BIG DATA STRATEGY & TECHNOLOGY CONSULTANTS (M/F)

TCI Consult is a Vienna based boutique consulting company focusing on holistic Corporate Management, Bank Management, Controlling & Reporting and Business Performance Management. We provide consulting services on the subjects of Data Warehousing and Business Intelligence. Our high level of expertise and trust is based on more than 20 years of professional experience in Information Management and a complete independence from technology vendors, which forms the basis for the objective management of technology evaluations.

We support our clients from the first idea, providing feasibility consulting, the conception of roadmaps through to a goal oriented project implementation and care for all aspects of successful communication. Our reference list represents large enterprises from all industries, though we concentrate on Financial Services, Telecom Industry, Energy Supply Companies and the Public Sector.

We are looking for experienced **Big Data Strategy & Technology Consultants (m/f)** with competencies in the field of Business Intelligence, to support our team within large data related projects. The responsibilities include carrying out tasks such as technology consulting, definition of Use Cases, designing of complex Business Intelligence and Big Data architectures as well as the development of innovative Business Cases.

University graduates or graduates of higher schools in the field of Data Related Management such as Information Technology, or Physics and Mathematics will be preferred. We expect several years of experience in the realization of Big Data Projects. Excellent English and German skills are mandatory. If you are interested in a new challenge and bring all the required qualifications, we are looking forward to your application.
