

## DATA QUALITY MANAGER (m/f)

**TCI Consult** is a Vienna based boutique consulting company focusing on holistic Corporate Management, Bank Management, Controlling & Reporting and Business Performance Management. We provide consulting services on the subjects of Data Warehousing and Business Intelligence. Our high level of expertise and trust is based on more than 20 years of professional experience in Information Management and a complete independence from technology vendors, which forms the basis for the objective management of technology evaluations.

We support our clients from the first idea, providing feasibility consulting, the conception of roadmaps through to a goal oriented project implementation and care for all aspects of successful communication. Our reference list represents large enterprises from all industries, though we concentrate on Financial Services, Telecom Industry, Energy Supply Companies and the Public Sector.

We are looking for a **Data Quality Manager (m/f)** to expand our teams in the banking sector. The role is considered to be on a senior level and will have to lead, drive and organise data quality related topics.

### MAIN TASKS AND RESPONSIBILITIES:

- Establish and implement a data quality reporting framework
- Develop and lead data quality improvement initiatives
- Monitor data quality issues and align them with relevant functional and business units, data governance and IT teams
- Work with different BI and data management tools

An ideal candidate has at least 5 years of working experience in complex projects and environments, preferably in data quality projects in the banking sector. A profound knowledge of data and system architectures as well as excellent analysis capabilities are essential. The ability to apply data quality methodologies is required. Data processing and data modelling experience are highly appreciated.

If you bring along the mentioned expertise and knowledge and look for a new challenge in an international environment, we welcome your application. The position provides full time engagement. University graduates in the field of data related management or information technology will be preferred. Excellent English and German skills are essential.

If we have managed to get your attention, we would certainly like to hear from you. Send us your full application including a picture to:
